

Affordable Housing vs. Developments

Who is your visualization for?

- **Citizens of Boston**
particularly those who have lower income
- **Developers**
looking to start new projects
- **City Planners**
for snapshots of districts, & attendees to their public meetings

What is it about?

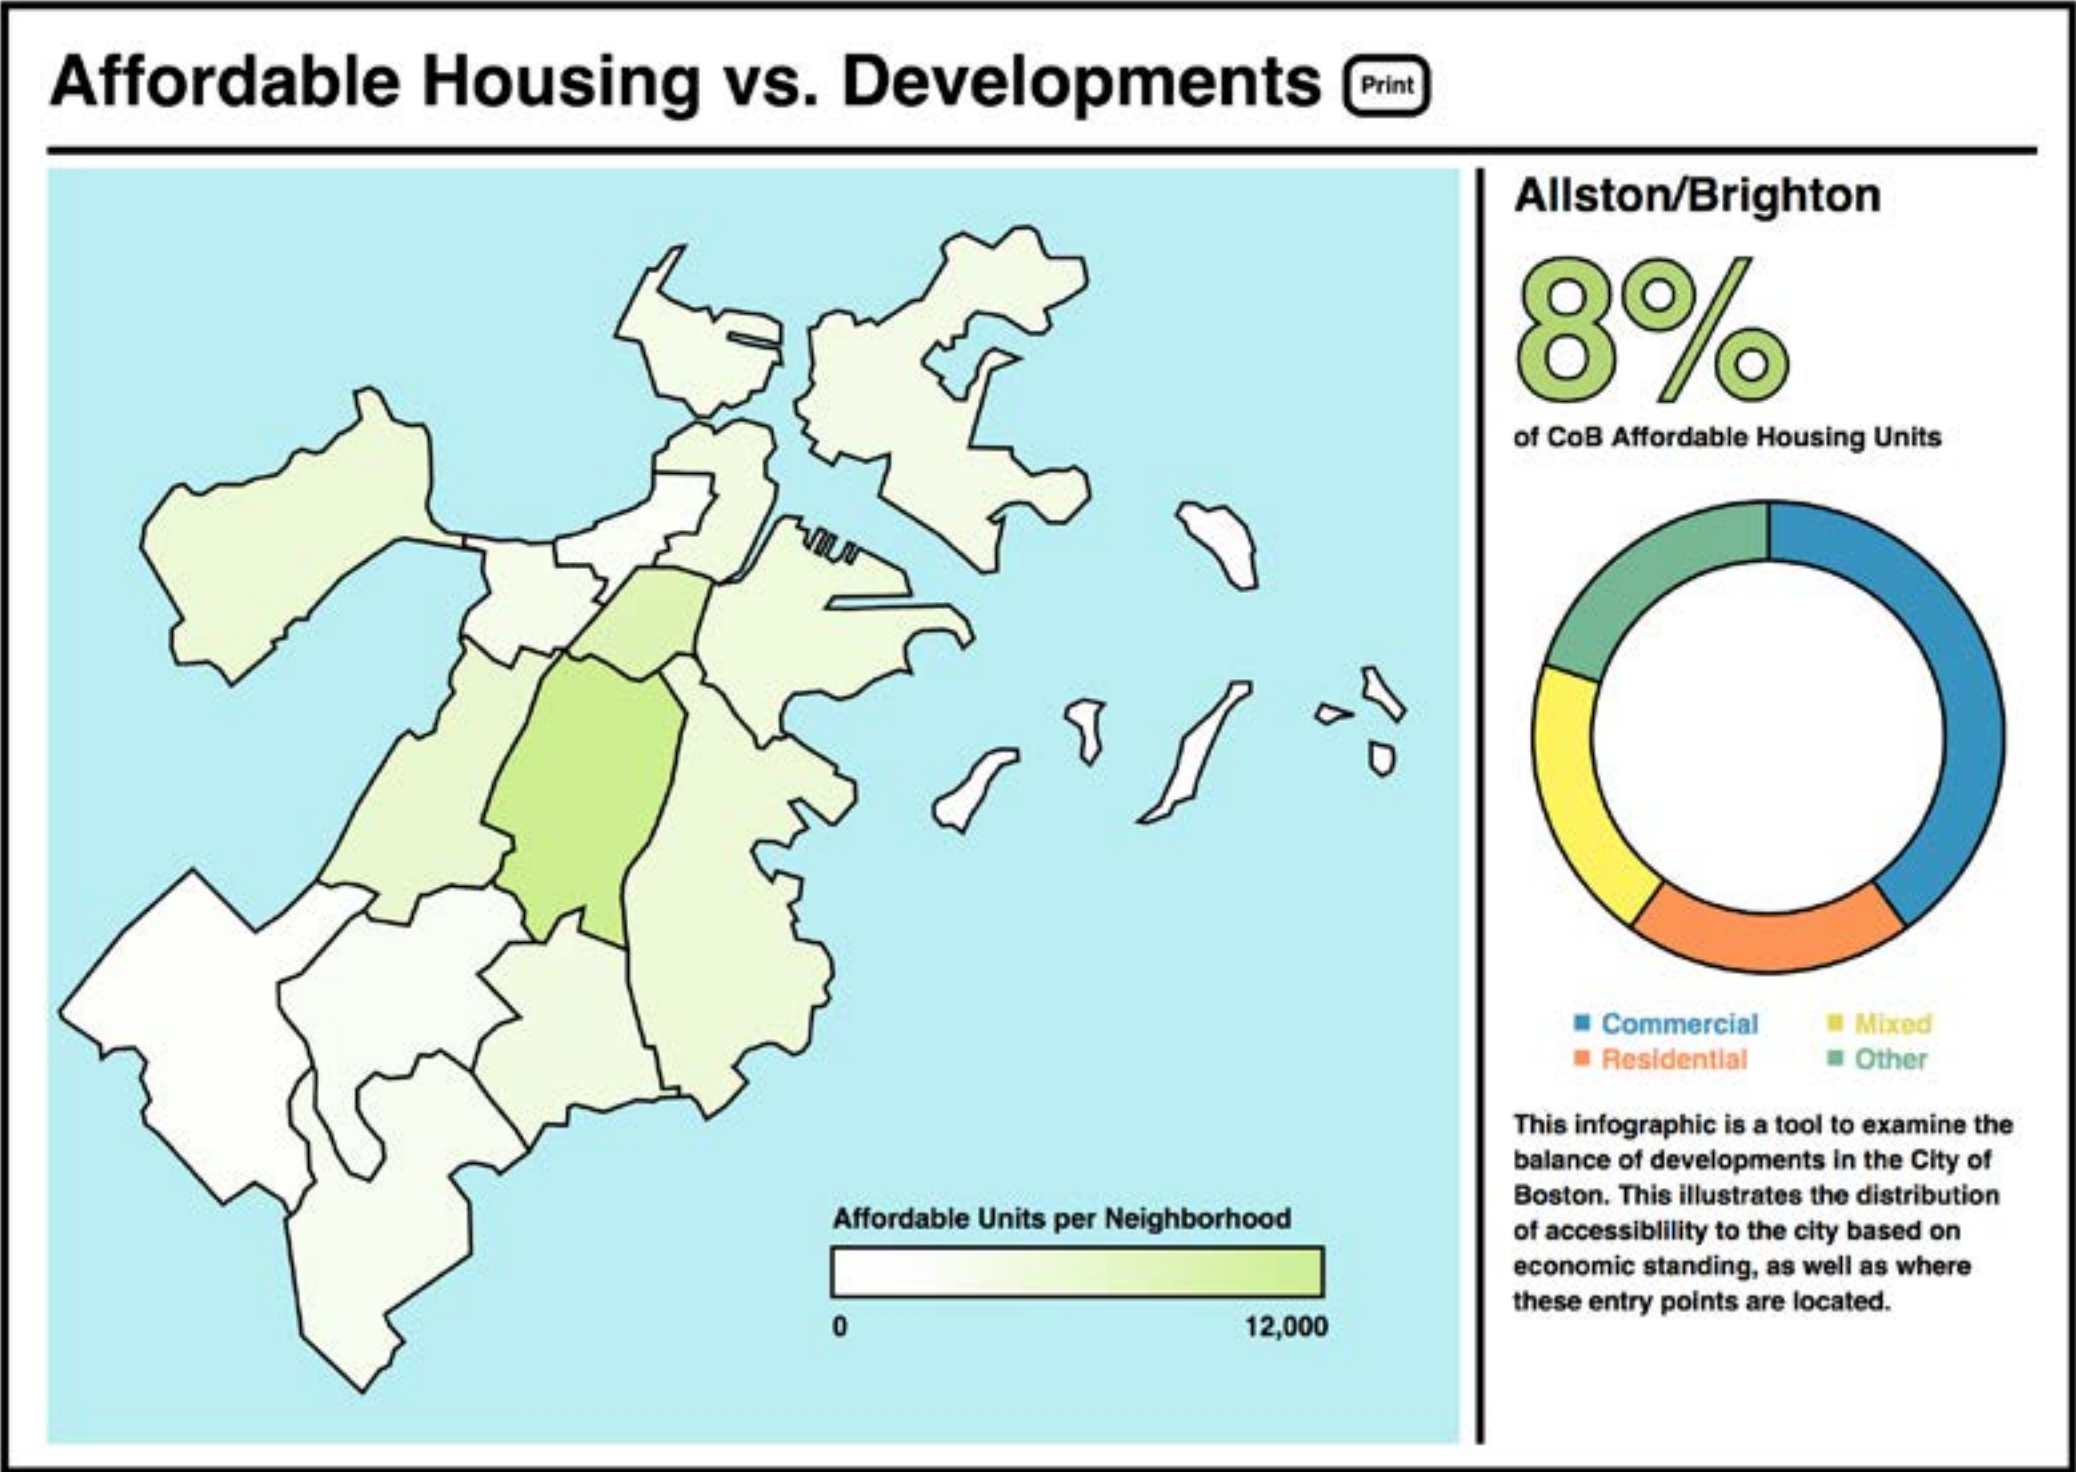

- **Affordable Housing**

*distribution of the the housing units,
the relation of the unit count per
neighborhood*

- **Types of Development**

*showing the distribution of develop-
ment type in each neighborhood*

What does it do?

What will people learn by reading this graphic?

- **Affordable Housing Distribution**
- **Development Type Distribution**
- **Income Disparities in Boston**

What would you improve if you could?

- **Data gathering & Cleaning**
- **Something to make clickable function more obvious**
- **Show actual locations of units**
